

S.P. KOWSALYA

9361563676 | kowsisp47@gmail.com | [LinkedIn](#) | [Github](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

MCA graduate with hands-on experience in web development and software development. Skilled in React.js, JavaScript, HTML5, CSS3, Bootstrap, REST APIs, Git, and responsive web design, with a strong foundation in Data Structures, OOP, and DBMS. Eager to contribute technical expertise, problem-solving skills, and a passion for building scalable, user-friendly, and high-performance applications in a dynamic organization.

TECHNICAL SKILLS

Languages: Python, Java, C

Web Technologies: HTML5, CSS3, JavaScript, JSON, REST APIs, Bootstrap, React.js, Node.js, Express.js

Databases: MySQL, MongoDB, SQLite

AI/ML: Scikit-learn, TensorFlow, OpenCV, YOLO, NumPy, Pandas

Tools: Git (Version Control), Github, VS Code, Figma, CorelDRAW

Core Concepts: Data Structures, OOP, DBMS, Machine Learning, CNN

EXPERIENCE

AI/ML Intern — Macvel Technologies, Sivakasi

Feb 2026 – May 2026

- Built, trained, and evaluated 3+ machine learning models using TensorFlow and Scikit-learn, improving prediction accuracy through hyperparameter tuning.
- Collected, cleaned, and preprocessed **1,000+** labeled datasets using Python and NumPy, improving data quality for model training.

Website Development Intern — GETIN Technologies

May 2025 – June 2025

- Developed 3 responsive web applications using HTML, CSS, JavaScript, and Bootstrap, improving cross-device compatibility across desktop, tablet, and mobile platforms.
- Collaborated with a **2-member team** to build a RedBus-inspired bus booking application featuring responsive layouts and interactive UI components.

PROJECTS

Mediction AI — AI-Powered Radiology Reporting System (Ongoing)

Technologies: Python, Flask, HTML/CSS/JS, SQLite, Gemini API

- Developing an AI-powered radiology reporting system using Python, Flask, SQLite, and Gemini API.
- Integrated speech-to-text, medical text correction, AI-generated reports, patient history management, PDF export, and REST APIs to support MRI, CT, X-Ray, and Ultrasound reporting.

CNN-Driven Road Surface Defect Detection & Severity Evaluation | [Github](#) | Feb 2026 – Apr 2026

Technologies: Python, YOLO, OpenCV, NumPy, TensorFlow, CNN

- Built a YOLO-based object detection model capable of detecting potholes and road cracks from **500+** images with **95% detection accuracy**.
- Designed a CNN-based severity classification model that categorized defects into Low, Moderate, and High severity using confidence scoring.

Expense Tracker Web Application | [Github](#) | Feb 2025 – Mar 2025

Technologies: HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB

- Built a full-stack expense tracker featuring secure user authentication, expense management, CRUD operations, and responsive user interfaces.

Shop Annual Accounting System | [Github](#) | Feb 2024 – Mar 2024

- Developed an accounting management system for inventory, payroll, taxation, and financial record management using Tally ERP.

ACHIEVEMENTS & CERTIFICATIONS

- Gold Medalist, B.Com Computer Applications — ranked 1st in department for academic excellence.
- Winner, multiple intercollegiate Adzap competitions — creativity and communication.
- Tata GenAI Powered Data Analytics Job Simulation (Forage) | HackerRank: Python, Problem Solving, Java, Software Engineer
- Industry-Ready Full Stack (MERN), DCE Technologies.
- Microsoft Learnathon | NoviTech — Data Analytics | NPTEL — Graphic Design | Coursera — UX Design | Wadhwani Foundation.
- Hands-on Python — Learn by Doing, Reccsar Pvt. Ltd | MongoDB Basic for Students (MongoDB Inc.)

EDUCATION

Master of Computer Applications (MCA) — V.V. Vanniaperumal College for Women, MKU

2024 – 2026

CGPA: 8.40 / 10.00

B.Com in Computer Applications — V.V. Vanniaperumal College for Women, MKU

2021 – 2024

CGPA: 8.10 / 10.00 | First Class | Gold Medalist
