PROFESSIONAL SUMMARY

Motivated MCA graduate with strong expertise in Python, SQL, Data Structures, Object-Oriented Programming (OOP), Machine Learning, and Full Stack Web Development. Experienced in developing responsive web applications and CNN-based computer vision solutions. Skilled in writing clean, efficient, and maintainable code, with strong analytical, problem-solving, and debugging abilities. Passionate about learning new technologies and building scalable software solutions. Eager to contribute as a Software Engineer, Python Developer, or Full Stack Developer.

TECHNICAL SKILLS

Programming Languages: Python, Java, C

Web Technologies: HTML5, CSS3, JavaScript, Bootstrap, React.js, Node.js, Express.js

Databases: MySQL, MongoDB

AI/ML: TensorFlow, OpenCV, NumPy

Libraries and Tools: Git, GitHub (Version control), VS Code

Core Concepts: Data Structures, OOP, DBMS, Machine Learning, CNN, Problem Solving

INTERNSHIP EXPERIENCE

Website Development Intern — GETIN Technologies *May 2025 to June 2025*

- Developed 3 responsive web applications using HTML, CSS, and JavaScript with optimized layouts for improved performance and user experience.
- Created a bus booking interface inspired by RedBus, supporting end-to-end user booking workflows and improving UI clarity and frontend usability.
- Collaborated with the development team to implement structured, mobile-friendly designs across multiple web pages.

PROJECTS

CNN Driven Road Surface Defect Detection and Severity Evaluation ---- *Feb 2026 to Apr 2026*

Technologies: Python, OpenCV, NumPy, Tensorflow, Machine Learning, CNN

- Engineered a CNN-based deep learning model achieving 95% accuracy in detecting and classifying road surface defects from images.
- Applied preprocessing techniques including resizing, normalization, and noise reduction to improve model accuracy and reliability.
- Implemented three-level severity classification to categorize cracks by damage level using Python, OpenCV, NumPy, and TensorFlow.

Expense Tracker Web Application | Technologies : HTML, CSS, Javascript, React.js, Node.js, Express.js MongoDB

- Built a full stack web application enabling users to track, add, modify, and delete daily income and expense records efficiently.
- Crafted a responsive user interface using HTML, CSS, JavaScript, and Bootstrap, supporting seamless use across all screen sizes.

Shop Annual Accounting System

- Managed inventory, payroll, and taxation using Tally ERP, processing and maintaining over 1,000 financial transactions accurately.

ACHIEVEMENTS

- Gold Medalist in B.Com Computer Applications, ranked 1st in the department for academic excellence.
- Won multiple Intercollegiate Adzap Competitions, demonstrating creativity and communication skills.
- Awarded Proficiency Prizes in 1st and 2nd year for outstanding academic performance.

CERTIFICATIONS

- Tata GenAI Powered Data Analytics Job Simulation, Forage, June 2026: Completed tasks in exploratory data analysis, risk profiling, AI based delinquency prediction, and data storytelling for collections strategy.
- HackerRank: Python, Problem Solving, Java, and Software Engineer certifications.
- Microsoft Learnathon | NoviTech Data Analytics | MongoDB | NPTEL | Coursera UX Design | Wadhwani Foundation.

EDUCATION

- Master of Computer Applications (MCA)** — V.V.Vanniaperumal College for Women, Madurai Kamaraj University *2024 to 2026*
- CGPA: 8.40 / 10 (Up to 3rd Semester)
- B.Com in Computer Applications** — V.V.Vanniaperumal College for Women, Madurai Kamaraj University *2021 to 2024*
- CGPA: 8.1 / 10 | First Class | Gold Medalist
